

Uptree's workshops.

All of our workshops are free and can be run either in-person or virtually for students in schools across the UK.

Employability and apprenticeships.

General employability

Objective: learn techniques to show your best self in applications.

Lesson overview:

- Roles and salary expectations
- Motivation statement support
- Competency questions, STAR technique and interview practice
- Industry information and company insights

Introduction to apprenticeships

Objective: learn more about apprenticeships.

Lesson overview:

- What is an apprenticeship
- Apprenticeship roles overview
- Competency questions, STAR technique and interview practice
- Industry information and company insights

Industry-specific workshops.

Our industry-specific workshops dive into key job roles and salary expectations, possible entry points, industry overviews and achievements, and industry information and company insights.

Each workshop aims to provide insights into a specific industry, and the careers and employers within it.

- Careers in STEM
- Careers in marketing
- Careers in law
- Careers in business and finance
