

Work Experience Days

- Our Work Experience Days are designed to introduce you to a company and industry.
- They are a great opportunity for you to interact with professionals in the workplace.
Don't forget to connect with people you meet at the events on LinkedIn!
- We want these events to inspire you and help you make career decisions.
- Work experience days can either be in person or online (usually over Zoom).
- You can filter our [Events page](#) for online or in person events, the location of the event as well as the industry to find the most suitable opportunities for you.
- Events are added to our platform regularly so we recommend either checking our [Event page](#) regularly or bookmarking company pages that are of interest to you - you'll then receive email reminders when new events and opportunities go live at this company.
